

Airport Acronyms Glossary

<http://glossary-of-terms.ru/?do=g&v=36>

Английский	
a/h	altitude/height
aac 1. Aeronautical advisory council 2. Aeronautical approach chart 3. Air approach control 4. Aircraft armament change 5. Alaskan air command 6. Antiaircraft cannon 7. Antiaircraft common 8. Army aviation center 9. Attack aircraft carrier 10. Automatic approach control 11. Asynchronous addressed communication	mike monroney aeronautical center advanced audio coding aeronautical advisory council Авиационный консультативный совет aeronautical approach chart Аэронавигационная карта подходов air approach control Управление заходом на посадку aircraft armament change Замена авиационного ;вооружения alaskan air command Командование ввс в зоне аляски antiaircraft cannon Зенитная пушка antiaircraft common Зенитный осколочно-фугасный (о снаряде) аас бр army air corps корпус авиации сухопутных войск army aviation center Центр авиации сухопутных войск attack aircraft carrier Ударный авианосец automatic approach control Автоматическое управление заходом на посадку asynchronous addressed communication Асинхронная адресная система связи
aaf 1. Advanced automated function 2. American air filter company 3. Antiaircraft fire 4. Antiaircraft forces 5. Army airfield 6. Army air forces 7. Army and air force	army air field advanced automated function Фаза более полной автоматизации (системы увд) american air filter company Фирма «америкэн эр филтер компа- ни» 14 antiaircraft fire Зенитный огонь antiaircraft forces Войска пво army airfield Аэродром авиации сухопутных войск army air forces Авиация сухопутных войск army and air force Сухопутные войска и ввс
aap	advanced automation program
abdis	automated data interchange system service b
acaais	air carrier activity information system

acas 1. Altocumulus and altostratus 2. Autovon centralized alarm system	aircraft collision avoidance system altocumulus and altostratus Высококучевые и высокослоистые облака
	autovon centralized alarm system Централизованная система тревожной сигнализации автоматизированной сети речевой связи "автовон"
accounting records Бухгалтерские документы - все документы и бухгалтерские журналы, используемые для учета операций;	acct
acct	accounting records Бухгалтерские документы - все документы и бухгалтерские журналы, используемые для учета операций;
acdo	air carrier district office
acf/artcc maintenance control center	amcc Apollo mission control center
acfo	aircraft certification field office
acft 1. Aircraft 2. Aircraft flying training	aircraft 1. Летательный аппарат; самолет а/сл air force находящийся на вооружении [принадлежащий] ввс (об управляемых ракетах) а уел air-launched запускаемый в воздухе (о ракете) 2. Armaments, incorporated фирма «эркрафт арма-мент инкор-иорейтед» 3. Летательный аппарат; самолет 4. Checker's report отчет [донесение] о результатах проверки [контроля, осмотра] ла 5. Manufacturer's progress report доклад [отчет] о ходе выполнения программы производства самолетов aircraft flying training Летная подготовка
aci-na	airports council international
acip Aerodynamic coefficient instrument package	airport capital improvement plan aerodynamic coefficient instrument package Комплект приборов для определения аэродинамического коэффициента мвка
acls 1. Air cushion landing system 2. All-weather (aircraft) carrier landing system 3. Automated control and landing system 4. Automatic carrier landing system 5. Assn. of canadian lands surveyors	automatic carrier landing system Автоматическая система посадки самолетов на авианосец асм рлк active countermeasures активная радиоэлектронная борьба; создание активных помех асм бр, как air chief marshal главный маршал авиации асм air combat maneuvers маневры, применяемые в воздушном б air cushion landing system Система приземления на воздушную подушку или на пневматический амортизатор all-weather (aircraft) carrier landing system Всепогодная система посадки (самолетов) на авианосец automated control and landing system Автоматизированная система посадки самолетов (на авианосец) assn. of canadian lands surveyors
aclt	actual landing time calculated
aco	aircraft certification office office of airports compliance and field operations
acquisition plan	ap

	1. Asia-pacific 2. Analytical plotter
acrp	airport cooperative research program
actual landing time calculated	aclt
adap Airport development aid program	airport development aid program Программа содействия развитию аэропортов
adas 1. Airborne data analysis system 2. Automatic data analysis system 3. Auxiliary data annotation set	awos data acquisition system airborne data analysis system Бортовая система регистрации и анализа данных automatic data analysis system Автоматическая система для регистрации и анализа данных auxiliary data annotation set Вспомогательное быстродействующее ^ вычислительно-индикаторное устройство «адас» для расчета и печатания разведывательных данных на аэрофотопленке
adccp	advanced data communications control procedure
adda 1. Air defense defended area 2. American design drafting assn.	administrative data air defense defended area Район, прикрываемый средствами ПВО; район ПВО адда (adda) , река на севере Италии, левый приток Р. По. 313 км. площадь бассейна 8 тыс. км ² . истоки в Альпах, протекает через оз. Комо, в низовьях - по паданской равнине. средний расход воды 250 м ³ /с. ГЭС. отходит канал до Милана. во время итальянского похода american design drafting assn.
adi 1. Advanced distance integration 2. Air defense intercept 3. Air defense interceptor 4. American documentation institute 5. Antidetonation injection 6. Attitude director indicator 7. Automatic 8. Areas of dominant influence (usbc tiger) 9. Acceptable daily intake 10. Advanced distance integration (minolta, konica minolta, sony brands). a technology to take distance information into account in combination with ttl flash metering. 11. Atom dipole interaction	automatic de-ice and inhibitor advanced distance integration Advanced distance integration (minolta, konica minolta, sony brands). a technology to take distance information into account in combination with ttl flash metering. air defense intercept Перехват средствами ПВО air defense interceptor Перехватчик в системе ПВО american documentation institute Американский институт документации antidetonation injection Впрыскивание антидетонационной жидкости (в топливо, двигатель) attitude director indicator Командный [директорский] авиаориент automatic 1. Автоматический 2. Direction indicator автоматический указатель направления 3. Inspection, diagnostic, and prognostic system система автоконтроля, отыскания неисправностей и прогнозирования состояния 4. Said of a door, window, or other opening protective device that is so constructed and arranged that, when actuated by a predetermined temperature or rise in temperature, it will operate as intended. areas of dominant influence (usbc tiger) acceptable daily intake Приемлемое суточное поступление
adin	autodin service

adly	arrival delay
administrative data	adda 1. Air defense defended area 2. American design drafting assn.
administrative data transmission network	adtn Addition
administrative data transmission network 2000	adtn2000
administrative equipment systems	adsy
administrative voice	advo
adp 1. Andorran peseta 2. Apparatus dew point 3. (альтернативная процедура поставки) условие фьючерсного контракта, которое позволяет покупателям и продавцам осуществлять или принимать поставку согласно срокам или условиям, которые отличаются от предписанных по контракту; 4. Ammonium dihydrogen phosphate 5. Advanced development plan 6. Advanced development program 7. Airborne data processor 8. Air defense position 9. Airports development program 10. Automatic data processing 11. Automatic destruct program 12. Amendment to development plan 13. Automated data processing	automated data processing apparatus dew point температура точки ammonium dihydrogen phosphate 1. Nh4h2po4 2. Первичный кислый фосфат аммония advanced development plan План перспективной разработки advanced development program Программа перспективной разработки airborne data processor Бортовое устройство для обработки данных air defense position Боевая позиция средств пво airports development program Программа развития аэропортов automatic data processing Автоматическая обработка данных automatic destruct program Автоматически выполняемая программа (само) ликвидации дополнение к плану освоения amendment to development plan Дополнение к плану освоения
adsim	airfield delay simulation model
adsy	administrative equipment systems
adtn Addition	administrative data transmission network addition 1. Добавление; сложение, присадка; дополнительный компонент (напр, топлива) 2. Добавление, дополнение; сложение 3. The optical power (of a lens) required for near vision, in addition to that required for far vision.
adtn2000	administrative data transmission network 2000
advanced automation program	aap
advanced data communications control procedure	adccp
advanced traffic management system	atms Advanced technology microwave sounder
advanced weather radar system	nxrd
advo	administrative voice

aeg 1. Aerospace ground (equipment) 2. Aircraft engine group 3. Association of engineering geologists	aircraft evaluation group aerospace ground (equipment) Наземное оборудование для авиационно-космической техники
	aircraft engine group Отделение «эркрафт эндженер груп» корпорации «дженерал дайнемикс»
	association of engineering geologists
aera Automated en route	automated en-route air traffic control automated en route Атс (system) автоматизированная маршрутная система увд
aeronautical data-link	adl 1. Atmospheric devices laboratory 2. Authorized data list 3. Automatic data link 4. Avionics development laboratory 5. Alexandria digital library (uc santa barbara)
aeronautical quality assurance field office	aqafo
aeronautical telecommunications network	atn Acute tubular necrosis
afb 1. Atmospheric fluidized bed 2. Air force base 3. Air force bulletin 4. Air freight bill 5. Antifriction bearing 6. Air force base; aerial fotobank (firm)	air force base Авиационная база ввс atmospheric fluidized bed псевдоожиженный слой при атмосферном давлении air force bulletin Бюллетень air freight bill Накладная на авиационный груз antifriction bearing 1. Антифрикционный подшипник 2. Any bearing having the capability of reducing friction effectively. aerial fotobank (firm)
afis Aerodrome flight information service	automated flight inspection system aerodrome flight information service Аэродромная служба нолет- ной информации
afp 1. Average flowing pressure 2. Acceleration along flight path 3. Air force pamphlet 4. Alternate flight plan 5. Authority for purchase 6. Active fire protection	area flight plan average flowing pressure среднее динамическое давление acceleration along flight path Ускорение по траектории полета air force pamphlet Информационный бюллетень ввс (по отдельным вопросам); технический листок ввс alternate flight plan Запасной план полета; вариант плана полета authority for purchase Разрешение на закупку активная противопожарная защита active fire protection Активная противопожарная защита
afres Air force reserve	air force reserve station air force reserve Резерв ввс

afs 1. Air force school 2. Air force specialty 3. Air force staff 4. Air force station 5. Air force supply 6. Airways facilities sector 7. Allowable flutter speed 8. Atomic fluorescence spectroscopy 9. Automated factory subsystem	airways facilities sector Сектор действия (аэронавигационного) оборудования воздушных трасс air force school Авиационная школа ВВС air force specialty Военно-учетная специальность в ВВС - air force staff Штаб ВВС air force station Станция [база] снабжения ВВС, станция [база] службы тыла ВВС air force supply Снабжение ВВС allowable flutter speed Критическая скорость флаттера automated factory subsystem
afs field office	afsfo
afs field unit	afsfu
afsfo	afs field office
afsfu	afs field unit
afsou	afs field office unit (standard is afsfou)
afss 1. Air force security service 2. Air force service statement	automated flight service station air force security service Служба безопасности ВВС air force service statement Заявление о поступлении на службу в ВВС
aig 1. All-inertial guidance 2. Anna inertial guidance (system) 3. Augmented inertial guidance	airbus industries group all-inertial guidance (чисто) инерциальное наведение anna inertial guidance (system) Инерциальная система наведения фирмы «арма» augmented inertial guidance Инерциальная система управления
air carrier activity information system	acais
air carrier district office	acd0
air defense area Район ПВО; кан округ ПВО	ada 1. Ammonium dihydrogen arsenate 2. Action data automation system 3. Advisory area 4. Aerojet differential analyzer 5. Air defense agency 6. Air defense alert 7. Air defense area 8. Air defense artillery 9. Angular differentiating accelerometer 10. Automatic data acquisition 11. Amplitude dependent adjustment
air force base Авиационная база ВВС	afb 1. Atmospheric fluidized bed 2. Air force base

	<ul style="list-style-type: none"> 3. Air force bulletin 4. Air freight bill 5. Antifriction bearing 6. Air force base; aerial fotobank (firm)
air force reserve station Национальная гвардия ВВС	afres Air force reserve
air national guard Национальная гвардия ВВС	ang <ul style="list-style-type: none"> 1. The iso 4217 currency code for netherlands antilles guilder. 2. Netherlands antillian guilder 3. Accurate non-floated gyroscope 4. Air force-navy-army 5. Air national guard 6. Alpha-numeric generator 7. Angle
air national guard base	angb
air route surveillance radar Маршрутная [линейная] РЛС 88	arsr Air route surveillance radar
air route traffic control center Маршрутный центр УВД	artcc Air route traffic control center
air taxi commercial operator	atco <ul style="list-style-type: none"> 1. Air traffic control officer 2. Air traffic coordinating officer
air to ground	a/g Albumin/globulin ratio
air traffic control assigned airspace	atcaa
air traffic control beacon indicator	atcbi Air traffic control beacon interrogator
air traffic control command center	atccc
air traffic control radar beacon	atcrb
air traffic control radar beacon system Сеть радиолокационных маяков УВД	atcrbs <ul style="list-style-type: none"> 1. Air traffic control radar beacon system 2. Air traffic control radio beacon system
air traffic control systems command center	atcscc
air traffic operations management system	atoms
air traffic service	ats <ul style="list-style-type: none"> 1. The iso 4217 currency code for austrian schilling. 2. Austrian schilling 3. Accelerometer-timer switch 4. Acquisition and tracking system 5. Advanced technological satellite 6. Aerodrome traffic service 7. Aeronautical training society 8. Aircraft tank service (company) 9. Air tactical school 10. Air-to-ship 11. Air traffic section 12. Air traffic services 13. Air traffic system 14. Air transport service 15. Ampere turns 16. Angle tracking subsystem 17. Annette tracking station

	18. Applications technology satellite 19. Associated technical services 20. Atlantic test site 21. Atlantic tracking ship 22. Automated telemetry system 23. Automatically taught system 24. Automatic test system 25. Automatic throttle system 26. Automatic trim system 27. Auxiliary tug service 28. Advanced technology satellite; applications technology satellite; automated technical systems (firm)
air transport association of america Американская ассоциация воздушного транспорта	ata 1. Фактическое время прибытия (прилета) 2. Actual time of arrival 3. Advanced test accelerator 4. Air transport association of america 5. Air 6. Air turbine alternator 7. Atmosphere absolute
air weather station	aws 1. Air warning system 2. Air weapon system 3. Air weather service 4. American war standards 5. Automatic weather station
airbus industries group	aig 1. All-inertial guidance 2. Anna inertial guidance (system) 3. Augmented inertial guidance
aircraft certification field office	acfo
aircraft certification office	aco
aircraft collision avoidance system	acas 1. Altocumulus and altostratus 2. Autovon centralized alarm system
aircraft evaluation group	aeg 1. Aerospace ground (equipment) 2. Aircraft engine group 3. Association of engineering geologists
aircraft rescue and fire fighting	arff
aircraft situation display	asd 1. Advanced surveillance drone 2. Advanced system department 3. Aeronautical system division 4. Aerospace support division 5. Air situation display 6. Air space devices 7. Airspeed deviation 8. Antisubmarine defense 9. Apollo support department 10. Aviation supply depot 11. Aviation system division 12. Atrial septal defect. a congenital defect in the heart between the atria.
aircraft surge launch and recovery	aslar
airfield delay simulation model	adsim
airline dispatch office	ado 1. Advanced development objective

	2. Air defense officer
airline office	arlo
airline schedule vendor	asv <ul style="list-style-type: none"> 1. Aerothermodynamic structural vehicle 2. Air-to-surface vessel (radar) 3. Angle stop valve
airline service quality performance	asqp
airman's information manual	aim <ul style="list-style-type: none"> 1. Информационное сообщение по опвд /24/ 2. Accuracy in measurement 3. Air (borne) intercep(tor) missile 4. Alarm indication monitor 5. American institute for microminiaturization 6. Automated internal management (subsystem)
airmen's meteorological information	airmet
airmet	airmen's meteorological information
airnet	airport network simulation model
airport acceptance rate	aar <ul style="list-style-type: none"> 1. Aircraft accident report 2. Air-to-air ranging 3. Allen aircraft radio 4. Army aviation regiment
airport and airspace simulation model	simmod
airport capital improvement plan	acip Aerodynamic coefficient instrument package
airport cooperative research program	acrp
airport development aid program Программа содействия развитию аэропортов	adap Airport development aid program
airport improvement plan	aip <ul style="list-style-type: none"> 1. Airborne instrumentation platform 2. American institute of physics 3. Auto-igniting propellant
airport information desk	aid <ul style="list-style-type: none"> 1. Aircraft identification determination 2. Aircraft inspection department 3. Air information division 4. Airport information deck 5. Agency for international development; aeronautical information data 6. Agency for international development. 7. Agency for international development (usa). 8. 1. help 2. a machine, tool or drug which helps someone do something r he uses a walking frame as an aid to exercising his legs. L verb to help someone or something r the procedure is designed to aid the repair of tissues after surgery. 9. Full form artificial insemination by donor. now called di
airport layout plan План аэропорта	alp <ul style="list-style-type: none"> 1. Air liaison party 2. Air liaison post 3. Airport layout plan 4. Airport location point 5. Automated lands project

airport movement area safety system	amass
airport network simulation model	airnet
airport noise and capacity act	anca Antineutrophil cytoplasmic antibody
airport planning standard	<p>aps</p> <ol style="list-style-type: none"> 1. Auction preferred stock. a type of dutch auction preferred stock (goldman sachs product). 2. Accessory power supply 3. Aerial photography and survey 4. Airborne power system 5. Airborne pulse search (radar) 6. Aircraft prepared for service 7. Airplane performance sheet 8. Airplanes 9. American 10. Automatic pilot system 11. Auxiliary power supply 12. Auxiliary power system 13. Auxiliary propulsion system 14. Aerosol polarimetry sensor 15. Arrival pilot station
airport reference point	<p>arp</p> <ol style="list-style-type: none"> 1. Address resolution protocol 2. Advanced re-entry program 3. Aerodrome reference point 4. Aeronautical recommended practices 5. Aerospace recommended practices 6. Airborne radar platform 7. Air report 8. An acronym for aeronautical recommended practice
airport reservation function	<p>arf</p> <ol style="list-style-type: none"> 1. Acute renal failure 2. Aeronautical research foundation 3. Air research forces
airport reservation office	<p>aro</p> <ol style="list-style-type: none"> 1. Acronym for accredited rail organisation 2. Airborne range only 3. Air research organization 4. Army research office 5. Automatic range only
airport service radar area	arsa
airport surface traffic automation	<p>asta</p> <ol style="list-style-type: none"> 1. Aerial surveillance and target acquisition 2. All-systems test article 3. American society of travel agents 4. Automatic system trouble analysis
airport surveillance radar Обзорная рлс аэропорта	<p>asr</p> <ol style="list-style-type: none"> 1. Aerodynamic section report 2. Airport surveillance radar 3. Air search and rescue 4. Air search radar 5. Air surveillance radar 6. Altimeter 7. American society of rocketry 8. Antisubmarine rocket 9. Approach surveillance radar 10. Automatic sprinkler riser 11. Aviation safety regulation 12. (terminal) area surveillance radar 13. Automatic synchronizing relay

airport weather information	awis Aircraft with initial shortage
airports consultants council	acc 1. Районный диспетчерский центр /22/ 2. Administration and communications centre 3. Assn. des cartotheques et archives du canada = assn. of canadian map libraries and archives; academia de ciencias de cuba 4. Association canadienne de cartographie
airspace and traffic advisory service	atas 1. Air transport auxiliary service 2. Automatic three-axis stabilization
airway facilities	af 1. The two-character iso 3166 country code for afghanistan. 2. Autofocus 3. Aerodynamic force 4. Air feed 5. Air fitter 6. Air flight 7. Air force 8. Air foundation 9. Air france 10. Ambient fuze 11. Amplification factor 12. Assembly fixture 13. Attenuation factor 14. Audio frequency 15. Automatic fault (finding) 16. Automatic following 17. Auxiliary field 18. Axial flow 19. Autofocus. the lens is focused automatically by means of the camera's hardware and firmware, to obtain optimum sharpness of an image. 20. Auto focus. a system that automatically focuses the camera lens. 21. Auto focus. all digicams and most modern slr lenses have this function now. the lens automatically focuses on the subject as quick as the eye. the only difference is that with an slr you can normally select manual focus if necessary.
airways facilities sector Сектор действия (аэронавигационного) оборудования воздушных трасс	afs 1. Air force school 2. Air force specialty 3. Air force staff 4. Air force station 5. Air force supply 6. Airways facilities sector 7. Allowable flutter speed 8. Atomic fluorescence spectroscopy 9. Automated factory subsystem
ais 1. Aeronautical information service 2. Aircraft inspection system 3. Aircrew instructional system 4. Air intelligence service 5. American interplanetary society 6. Apollo instrumentation ship 7. Ascension island station 8. Attitude indicating system 9. Automatic intercept system 10. Automatic interplanetary station 11. Atom inelastic scattering 12. Automatic identification system.	aeronautical information service Служба аэронавигационной информации alarm indication signal услуги педагогического вмешательства aircraft inspection system Система проверки ла aircrew instructional system Система обучения экипажа air intelligence service Разведывательная служба ввс american interplanetary society

	<p>Американское общество межпланетных сообщений</p> <p>apollo instrumentation ship Плавучая станция для слежения за полетом и приема данных с борта кла «аполлон»</p> <p>ascension island station Станция слежения на о. вознесения</p> <p>attitude indicating system Система индикации углов пространственного положения</p> <p>automatic intercept system Автоматическая система перехвата 59</p> <p>automatic interplanetary station Автоматическая межпланетная станция</p>
ait 1. Advanced individual training 2. Autoignition temperature 3. Array induction tool	<p>automated information transfer</p> <p>advanced intelligent tape устройство хранения цифровых данных на ленте</p> <p>advanced individual training Повышенная индивидуальная подготовка</p> <p>autoignition temperature Температура самовоспламенения</p> <p>индукционный зонд</p> <p>array induction tool Индукционный зонд</p>
alp 1. Air liaison party 2. Air liaison post 3. Airport layout plan 4. Airport location point 5. Automated lands project	<p>airport layout plan План аэропорта</p> <p>abstract local primitive air liaison party Группа связи с авиацией</p> <p>air liaison post Пост связи с авиацией</p> <p>airport location point Географический пункт аэропорта</p> <p>automated lands project</p>
als with sequenced flashers i	alsf1
als with sequenced flashers ii	alsf2
alsf1	als with sequenced flashers i
alsf2	als with sequenced flashers ii
alsip Alberta land settlement infra-structure project	approach lighting system improvement plan alberta land settlement infra-structure project
alternate network connectivity	<p>anc</p> <p>1. Ablating nose cone</p> <p>2. Air force-navy-civil</p> <p>3. Area navigation computer</p> <p>4. Army-navy-civil</p> <p>5. Ashore navigation center</p>
altitude reporting mode of secondary radar	mode c
altitude reservation Резервирование высоты	altrv Altitude reservation
altitude-- encoded beacon reply	mode c

altitude/height	a/h
altrv Altitude reservation	altitude reservation Резервирование высоты
amcc Apollo mission control center	acf/artcc maintenance control center apollo mission control center Центр управления по подготовке космонавтов и техническому обеспечению полетов кла «аполлон» амсс army missile command calibration center калибровочный центр командования ракетного оружия сухопутных войск
american national standards group	ansi 1. [initials/acronym for the american national standards institute] this body publishes specifications for a number of standard programming languages. the specifications are generally arranged to concur with those of iso. 2. American national standards institute (национальный институт стандартизации США) – главный орган в США, который занимается разработкой стандартов в технических областях. является неправительственной организацией, взаимодействующей с более, чем 1000 промышленными организациями. 3. American national standards institute 4. American national standard institute 5. American national standards institute. 6. American national standards inst. 7. Abbreviation for american national standards institute. an organization that administers and coordinates the u.s. voluntary standardization and conformity assessment system.
american recovery and reinvestment act of 2009	arra
american telephone and telegraph	at&t "американ телефон энд телеграф" (american telephone and telegraph), электротехническая и электронная компания США, крупнейшая в стране по выпуску слаботочного оборудования. основана в 1885. выпускает оборудование связи, ЭВМ и др. электронную технику, обслуживает американские и международные телекоммуникационные сети
amver	automated mutual assistance vessel rescue system
anc 1. Ablating nose cone 2. Air force-navy-civil 3. Area navigation computer 4. Army-navy-civil 5. Ashore navigation center	alternate network connectivity ablating nose cone Теплозащитный носовой конус (головной части ракеты) air force-navy-civil ВВС, ВМС и гражданская авиация area navigation computer Вычислитель системы зональной навигации army-navy-civil Сухопутные войска, ВМС и гражданская авиация ashore navigation center Береговой навигационный центр
angb	air national guard base
anms Automated notice to mariners system	automated network monitoring system automated notice to mariners system
app Apparatus	approach 1. Заход на посадку; подход; сближение 2. 1. a way of dealing with a problem ↗ the authority has adopted a radical approach to the problem of patient waiting lists. 2. a method used by a surgeon when carrying out an operation apparatus

	<p>1. Аппаратура arpv airborne provisioning parts доставляемые по воздуху запасные части appc advance planning procedure change изменение порядка перспективного планирования appc advance procurement planning council совет по перспективному планированию закупок appc automatic power plant checker автоматическое устройство для контроля силовой установки</p> <p>2. Устройство (патентоспособными объектами являются устройства, способы, вещества, а не аппараты, машины, методы и т. д.)</p> <p>3. Equipment used in a laboratory or hospital ↗ the hospital has installed new apparatus in the physiotherapy department. ↗ the blood sample was tested in a special piece of apparatus. (note: no plural: use a piece of apparatus; some new apparatus.)</p> <p>4. Аппарат</p> <p>аппарат, прибор, приспособление, устройство</p>
approach lighting system	<p>als</p> <p>1. Amyotrophic lateral sclerosis</p> <p>2. Advanced logistics system</p> <p>3. Aircraft landing system</p> <p>4. Air letter service</p> <p>5. Air liaison section</p> <p>6. Air logistics service</p> <p>7. Approach and landing simulator</p> <p>8. Approach light system</p> <p>9. Automatic landing system</p>
approach lighting system improvement plan	<p>alsip</p> <p>Alberta land settlement infra-structure project</p>
aqafo	aeronautical quality assurance field office
arctr	faa aeronautical center or academy
area control center	<p>acc</p> <p>1. Районный диспетчерский центр /22/</p> <p>2. Administration and communications centre</p> <p>3. Assn. des cartotheques et archives du canada = assn. of canadian map libraries and archives; academia de ciencias de cuba</p> <p>4. Association canadienne de cartographie</p>
area control facility	<p>acf</p> <p>Air combat fighter</p>
area flight plan	<p>afp</p> <p>1. Average flowing pressure</p> <p>2. Acceleration along flight path</p> <p>3. Air force pamphlet</p> <p>4. Alternate flight plan</p> <p>5. Authority for purchase</p> <p>6. Active fire protection</p>
arff	aircraft rescue and fire fighting
arinc Aeronautical	<p>aeronautical radio, inc.</p> <p>aeronautical</p> <p>1. Аэронавигационный; авиационный</p> <p>2. Авиационный</p> <p>3. Information, regulation and control аэронавигационная информация, правила и управление полетами</p> <p>4. Manufacturer's planning report доклад [отчет] о производственном плане авиа завода</p> <p>5. Radio, incorporated фирма «аэронотикл радио инкорпорейтед»</p>
arlno	airline office
army air field	<p>aaf</p> <p>1. Advanced automated function</p> <p>2. American air filter company</p> <p>3. Antiaircraft fire</p>

	4. Antiaircraft forces 5. Army airfield 6. Army air forces 7. Army and air force
arp 1. Address resolution protocol 2. Advanced re-entry program 3. Aerodrome reference point 4. Aeronautical recommended practices 5. Aerospace recommended practices 6. Airborne radar platform 7. Air report 8. An acronym for aeronautical recommended practice	airport reference point address resolution protocol Rfc 1122 advanced re-entry program Программа перспективных исследований входа в плотные слои атмосферы aerodrome reference point Контрольный [характерный] ориентир аэродрома; бр географический пункт аэродрома aeronautical recommended practices Методика, рекомендованная для авиации aerospace recommended practices Методика, рекомендованная для авиации и кла airborne radar platform Летающая платформа для рлс; самолет- носитель мощной рлс air report 1. Донесение с борта самолета 2. (письменное) донесение летчика
arra	american recovery and reinvestment act of 2009
arrival aircraft interval	aai 1. Aircraft 2. Air-to-air identification 3. Angle-of-approach indicator 4. Angle-of-attack indicator
arrival delay	adly
arrival sequencing program	asp 1. Планирование систем авиационной фиксированной службы (afs) для обмена данными 2. /active server pages/ 3. Advanced studies program 4. Advanced study project 5. Aeronautical satellite program 6. Aerospace plane 7. Airborne support platform 8. Airport systems plan 9. Airspace 10. Air superiority (mission) 11. All-altitude spin projectile 12. Ammunition supply point 13. Antisubmarine patrol 14. Apollo spacecraft project 15. Astronautics standard practice 16. Atmospheric sounding projectile 17. Atomic strike plan 18. Automatic schedule procedure 19. Auxiliary spacecraft power 20. Avionics status panel 21. American society of photogrammetry; application service provider
arsr Air route surveillance radar	air route surveillance radar Маршрутная [линейная] рлс 88

(an anchor raised to the cat head is said to be catted.)</p> <p>23. A roll of straw and clay; used as filling between timbers in a wall. catabasis, catabasian</p> <p>24. Same as computerised axial tomography</p> <p>категория</p> <p>1. Категория , разряд</p> <p>2. (от греч. <i>kategorein</i> высказывать) – в разговорном языке то же самое, что вид, сорт, класс, ранг («определенная категория служащих»). в философии категории, с одной стороны, наиболее общие и вместе с тем простейшие формы действительности, высказываний и понятий, «родовые понятия» (кант), от которых происходят остальные понятия (категории познания, сознания), а с другой – первоначальные и осн. формы бытия объектов познания (категории бытия, категории реального). соотношение между категориями бытия и категориями познания исследуется теорией познания; см. также основное отношение. основателем учения о категориях является аристотель; он считал, что имеется всего 10 категорий (единичного и общего): сущность, количество, качество, отношение, место, время, действие, страдание, обладание, самонахождение (положение). по существу, уже и платон знает 4 категории: идентичность, отличие, постоянство, изменчивость. сколастика, которая называла категории также предикаментами (см. также предикабилии), знала только 6 категорий: бытие (сущность), качество, количество, движение (изменение), отношение, обладание (<i>habitus</i>). декарт и локк различают 3 категории: субстанция, состояние (модус), отношение. кант понимал под категориями формы рассудка, которые, придавая познавательный характер чистому восприятию, обусловливают опыт и которые сами по себе, т.е. без использования ощущений, не имеют познавательной ценности. кант составил таблицу категорий, производную от соответствующей таблицы суждений (схемы), систематизировал 12 категорий в 4 группы по 3 категории в каждой; первые 6 категорий он назвал математическими, а 6 последних – динамическими; категории количества: единство (мера), множество (величина), цельность (все); категории качества: реальность, отрицание, ограничение; категории отношения: принадлежность, причинность, общение; категории модальности: возможность, существование, необходимость. в 19 в. гегель разработал систему категорий, более обширную и сложную, чем все прежние. э. гарпман также дал свое последовательно проведенное и доныне сохранившее значение учение о категориях. шопенгаузер выбросил из 12 кантовских категорий все, кроме причинности: тем самым о себе заявила философия, в принципе скептически относящаяся ко</p>

	всем категориям, особенно в том виде, как она встречается у ницше. кроме западной философии, сложная система категорий была построена прежде всего индийской философией, а именно философскими учениями санкхья, вайшешика и ньяя. в настоящее время проблема категорий разрабатывается в рамках онтологии (см. категориальный анализ).
